John, attached are my comments in blue to your comments in red. Also attached is the referenced map.

As we discussed, we can develop a cost estimate fairly quickly for the FY15 funds once we know the amount of the funds that may be available. I believe we agree that there is no need to develop cost estimates for the 5-scopes of work referenced at this time.

(The FY14 funds, PH 14-U62, did not specifically identify the specific scope of work at Second Mesa, and we should be able to use those U62 funds for any of the Second Mesa scopes of work).
